Hello! I'm Kelsie

Instructional Coach at Heritage Middle

$$V = \frac{4}{3} \pi r^3$$

$$V = s^3$$

$$V = \frac{1}{3} Bh$$

$$V = Bh$$

- Taught 6 years in Metro Nashville
- Finishing year 5 as an instructional coach
- I love this job because teachers and students still teach me so much!
- I'm passionate about this job because I love helping teachers and making their life easier for the betterment of their students.
- Newlywed- so fun!
- 2 dogs (Milo and Remy)
- Cheer Coach

Hello! I'm Erin

-This is my 10th year teaching!

-5th grade math- 3 years in Maury County

-6th grade math- 7 years in Williamson County

-This is my second career, so I chose to do this!

I worked as a Registered Dietitian prior.

-Coached volleyball for school and club for 15-ish years

-Married with 2 dogs.

$$V = \frac{4}{3} \pi r^3$$

$$V = s^3$$

$$V = \frac{1}{3} B h$$

$$V = B h$$

What is today about?

- Learning how to breakdown an assessment.
- Which allows:
 - Time saved
 - Collaboration
 - Communication
 - Standards based testing
- We want to show you three examples of how our school collaborates on test/assessments.
- We want to explain the role of each individual and why this is an important process.
- We want to give you time to reflect on your own practices.
- We want to give you the opportunity to ask questions.

Let's
make
life
easy.

Purpose

- Do you feel like you test too much or too little?
- How can we make our time testing productive?
- Focus on the standards. Not the test.
- All team members should be involved.
- Walk away with everyone on the same page.
- Easier planning for all.

$$V = wh$$

$$V = \frac{1}{3} Bh$$

$$V = Bh$$

7th grade

8th grade

Focus on the standards

Do you utilize the Instructional Focus Document (IFD)?

What do we do with the standards?

- 1) Read the statements for Level 3. This is on grade level.
- 2) Read the Instructional Focus Statement. This goes into more detail about what students should be doing and ideas for teaching.
- 3) Use the statements for Level 3 to determine what exactly you are assessing.
- 4) In a perfect world, one “meeting” would be to discuss what the standard means and the second “meeting” would be to finalize the test.

02

6th Grade

7th grade

8th grade

Pick your
questions

Individually solve each problem on the
assessment.

How do we collaborate?

- 1) Each team member has a voice.
- 2) In general, we use 3 words...keep, edit, delete.
- 3) Everyone comes to the meeting prepared or we reschedule

Apply these techniques in the context of solving real-world and mathematical problems.</p>		<p>Draw a net to represent prisms and pyramids made up of rectangles and triangles.</p> <p>Use nets of three-dimensional figures to calculate the surface area.</p> <p>Relate the area of two-dimensional figures to find</p>			<p>9-2 Surface Area of R</p> <p>9-3 Surface Area of T</p> <p>9-4 Surface Area of P</p> <p>Nets of Calculate</p>															

NAME _____ DATE _____ PERIOD _____ SCORE _____

Module Test Form A1 Volume and Surface Area

1. Marathi has a wooden jewelry box in the shape of a rectangular prism with the dimensions shown. What is the volume of the box?

vol.

- A 1,932 cm^3
- B 3,864 cm^3
- C 5,400 cm^3
- D 7,332 cm^3

But Not fractional?

2. The volume of the prism shown is $1\frac{7}{8}$ cubic feet. What is the value of x ?

vol. missing length

✓
Find missing edge length?

3. Tais is shipping a coat to her grandmother. When folded, the coat has a volume of 10,000 cubic centimeters. Is a box with the dimensions shown large enough to ship the coat? Explain your answer.

Apply

4. A hardware store sells two different-sized boxes of finishing nails. If the boxes are in the shapes of rectangular prisms, which size box of nails is the better buy?
Explain your answer.

Box Size	Length (in.)	Width (in.)	Height (in.)	Price (\$)
Small	4	6	3	6.00
Large	7	4	5	12.50

Apply Volume

- The small box will have dimensions 4 in. by 6 in. by 3 in.
 The large box will have dimensions 7 in. by 4 in. by 5 in.
 The price of the nails will have dimensions 3 inches by 6 inches.

5. The volume of a tissue box with the dimensions shown is 180 cubic inches. What is the length of the tissue box?

?
 X
 Do we need missing?
 No
 Not for Test

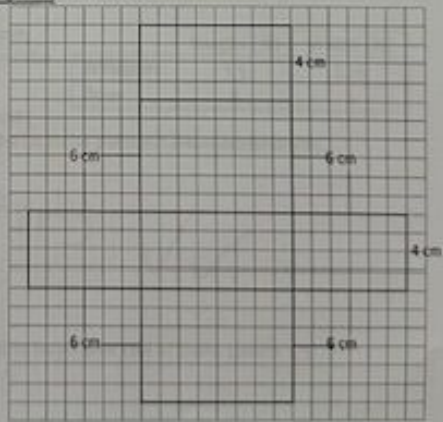

6. Use the net to find the surface area of the rectangular prism shown.

S.A. Rect. Prism
✓✓

Prism

Volume	SA Rect	SA Tri	SA Pyra.	Apply	Nets
				vol- SA Rect-1 SA Pyr-1	1-Rect. 1-Tri.

Example 2- Spreadsheet

1	c when given diameter				
2	c when given radius				
3	find diameter when given c				
5	a when given r				
6	a when given d				
7	a when given d semi-circle				
8	a when given c			Solve only	
9	a of composite				
10	find shaded area *				
11ab	area of composite real world

Course: 8

Unit/Topic/Module: M10

Quarter: 3

Assessment Template for Unit Study

Problem #	Standard	EOL	Keep, Edit, Delete	Notes
1.	8.G.C.7	cylinder	Keep	battery no pic
2.		conversion	Delete	
3.		Cylinder	delete	picture
4.		cylinder	Delete	real-world
5.		cone	?	diameter, real-world?
6.		cylinder, cone	edit x 1/3?	solve both cone & cylind. wld. ca?
7.		cone	Keep	real world, cake, no pic wld
8.		cone	Keep	picture wld
9.		sphere & cube	delete	yikes
10.		sphere	Keep	picture, wrong answer?
11.		hemisphere	delete	not the standard?
12.		hemisphere	delete	not the standard
13.		cone	edit	I like but standard? Find h give
14.		sphere	edit	hmm... find radius
15.		cylinder	Keep	compare find h
16.		hemisphere	delete	hemisphere
17.		sphere, cylin.	Keep	real world
18.		composite	delete	
19.		conversion	delete	
20.		composite	delete	
1.		cylinder	Keep	picture - volume
2.		cone	?	picture - volume

Book Test

Last Year

Course: 8

Unit/Topic/Module: MID

Quarter: 3

Assessment Template for Unit Study

Problem #	Standard	EOL	Keep, Edit, Delete	Notes
b 1.	Find cylinder	RW-batteries	Keep	Using π Key (book) $V = \pi r^2 h$ (battery)
b 2.	Find cylinder		Delete	conversions
b 3.	Find cylinder	picture		$V = \pi r^2 h$ (battery)
b 4.	Find cylinder		Delete	converting/adding/subtracting
b 5.	Find cone	RW-sandwich		$V = \frac{1}{3} \pi r^2 h$ / diameter \Rightarrow radius
b 6.	Find cyl/cone	pictures	Keep	1) finding difference
b 7.	Find cone	RW-cake mold		$V = \pi r^2 h / 3$ / diameter \Rightarrow radius
b 8.	Find cone	picture		$V = \pi r^2 h / 3$ / diameter \Rightarrow radius
b 9.	Find sphere	RW-ornaments	Delete	$V = \frac{4}{3} \pi r^3$ / prism
b 10.	Find sphere	picture	Keep	$V = \frac{4}{3} \pi r^3$
b 11.	Find sphere	picture	?	hemisphere ($\frac{1}{2}$) $V = \frac{2}{3} \pi r^3$
b 12, 13	Find cone	RW-table	Delete	$V = \frac{1}{3} \pi r^2 h$?
b 14	Find sphere	descript		Finding Radius - given V given h
b 15	Cylinder	drink glass		Find height / difference in 2
b 16	Sphere	descript	?	hemisphere / Finding Radius
b 17	Sphere/cylinder	RW-bday cake	Keep	Find sphere, cylinder / add/sub
b 18	Cone	RW-ice cream	Delete	
b 19	Sphere	RW-necklace	Delete	
b 20	hemi sphere/cyl	Composite fig	20A ? 20B delete	$V = Sp$ $V = cyl + add$
b 21, 12	hemisphere	picture	?	$V = \frac{2}{3} \pi r^3$ maybe
L 1.	cylinder	picture		$V = \pi r^2 h$
L 2.	Cone	RW-snow cone		$V = \frac{1}{3} \pi r^2 h$

Course:

Unit/Topic/Module:

Quarter:

L 3.	Sphere	picture		$V = \frac{4}{3} \pi r^3$
L 4.	cyl	desc		Find h
L 5.	Cone	desc.		Find r
L 6.	Sphere	RW-balloons		$V = \frac{4}{3} \pi r^3$
L 7.	cylinder	desc		Find ans w/ pi
L 8.	Sphere	RW-tennis balls	Keep	vol - 3 balls / canister vol
L 9.	Cyl, Cone, Sph	RW Vases	Keep	compare / cylinder tennis balls
L 10.	Cone	PIC		
L 11.	Cylinder	RW-cake	Keep	Find vol / divide each piece
L 12.	Cyl, cone, sp	PIC	Keep	Find vol over 600
L 13.	sphere	RW-shot put	Keep	Find diameter

- L 8 RW - cyl/sphere (tennis balls) $\left[\begin{array}{l} V - cyl \rightarrow w/out \text{ tennis balls} \\ V - sphere \times 3 \end{array} \right]$
- L 9 RW - cyl, cone, sphere (vases) \rightarrow [least \rightarrow greatest / difference]
- L 11 RW - cyl (cake) [vol/per piece]
- L 12 V PIC - cyl, cone, sphere [over 600 vol]
- L 13 RW - sphere (shot put) - [Find diameter]
- B 1 RW - cyl (battery) [vol cyl]
- B 6A V PIC - cyl, cone (vol cyl, vol cone)
- B 10 V PIC - sphere [vol - sp]
- B 17 RW - cyl, sph [vol cyl, sp / add / #svgs]

All Means All

For us to feel like we are reaching and preparing our students, all team members are important in this process.

Instructional Coach Role:

Participates just like teachers, really study the standard to be able to answer questions, collaborate with other schools when there are questions, tie-breaker

Teacher Role: Attend the meetings prepared and ready to discuss questions to keep, edit, delete. Stay focused on what the standard needs students to learn. Be flexible!

SSS Role: Attend meeting, Know the standard and questions, Identify necessary prerequisite skills that support student success, Create and teach small groups. Be supportive!

What questions

can we

answer?

Thank you!

Email us!
